

# Walk For Children Change Buckets

## Instructions

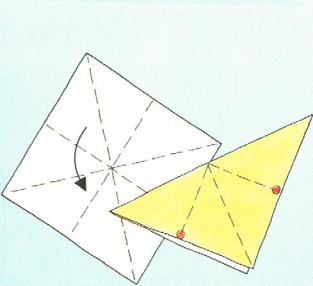

Print off the standard page and cut off the lower strip. This will be used as a "tail" for the bucket. Fold the lower edges of the tail and insert in the side flaps on the bucket.

When folding the page, make sure the **Walk For Children** logo is NOT part of the folding flaps.

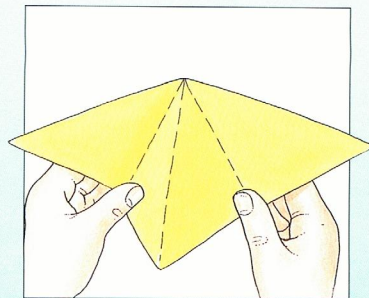

1. With the paper right side up, make two creases by folding opposite sides together and unfolding them.

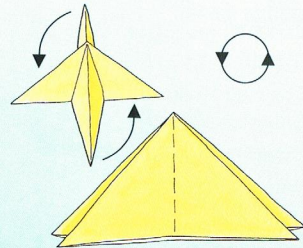

2. Turn the paper over and lay it so that one corner is facing you. Fold it in half from side to side, then unfold.

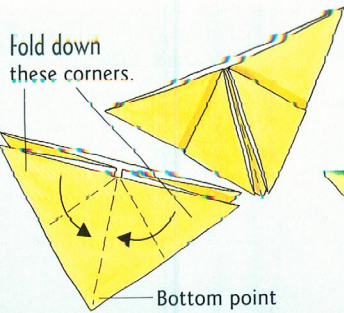

3. Fold it in half from top to bottom. Hold the paper in **both hands at the spots** marked in the picture above.

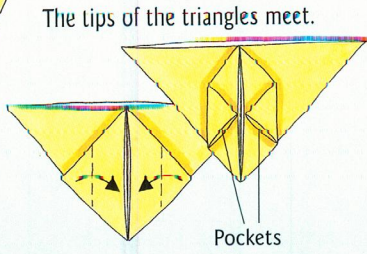

4. Push the paper in so that your fingers meet in the middle. There are now four triangles sticking out.

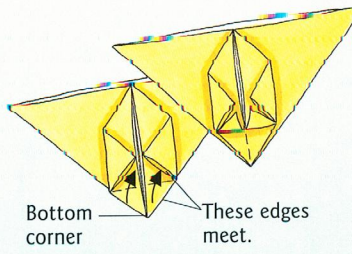

5. Now, fold the triangle in front to the right, and the triangle at the back to the left. Press the paper flat.

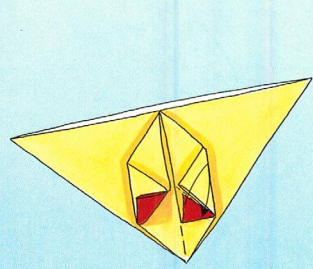

6. Place the paper with the long edge at the top. Fold the top corners of the top layer down to the bottom point.

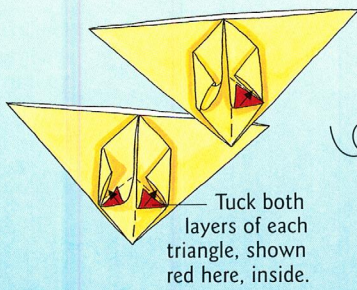

7. Fold the side corners of the triangles made in step 6 into the middle. This makes little pockets, shown above.

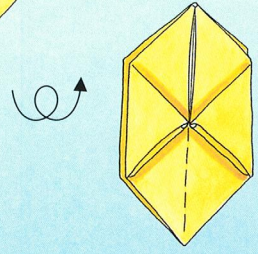

8. The top layer of the bottom corner has two points. Fold these points up along the dotted lines shown

9. Fold the triangles shaded red above along their diagonal sides, up over the triangles with pockets. Unfold.

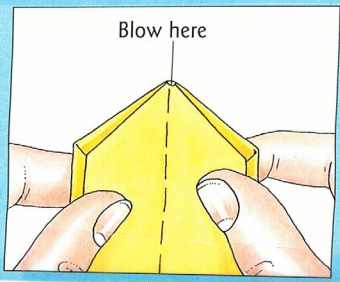

10. Lift the side triangles with pockets. Open out the pockets a little. Tuck the triangles below them inside.

11. Now, turn the paper over and repeat steps 6-10 very neatly. The paper now looks the same on both sides.

12. Pull the two halves of the paper apart. Blow into the hole at the top to puff up the paper into a box shape.

Shape the bucket and cut a hole in the top so money can be inserted like a Piggy Bank
